

Filter Buyer's Pack

Bring the same questions to every seller. Compare fit and complete cost before choosing a filter.

Define the job

Water source and relevant report date

What you want to change, and which taps need treatment

Who will interpret the report if needed

Permission or installation restrictions

Compare two suitable options

Option A: exact model and seller

Option B: exact model and seller

Specific treatment claim and supporting document for each

Connection, service access, faucet, drain and power requirements

Who confirmed suitability and when

Filter Buyer's Pack - continued

Build the ownership budget

Equipment and included first cartridges

Installation and excluded work

Each replacement part: exact number, price and source date

Each part: time/capacity trigger from the current manual

Shipping, tax, annual service, energy or other costs

Unknown costs to confirm before deciding

Send this to the seller

Which finding or goal does this exact model address?

Where is the exact reduction claim documented?

What extra work or supplies are not included?

What ends any discount or subscription benefit?

Who supports the system and supplies parts after purchase?

Use the current equipment manual and professional advice. This record is not an inspection, diagnosis or guarantee.
